3 January 2012

Mr Richard Simon  
Technical Director  
Solarsense UK  
Helios House  
Brockley Lane  
Backwell  
Bristol BS48 4AH

Dear Richard

### **NAILSEA METHODIST CHURCH PHOTOVOLTAIC SYSTEM**

I write on behalf of the project team and the members of Nailsea Methodist Church to express our appreciation and thanks at the way in which our enquiry and subsequent order for a PV System was handled by Solarsense.

We have been impressed by Solarsense's attention to detail from the very first enquiry in February until the system was commissioned on December 7<sup>th</sup>. You needed to work through several technical challenges along the way and you did this in a professional manner that instilled confidence in our decision to engage your organisation for this project. At all stages you delivered as you promised - safely, cleanly, on time and with no surprises in cost. We are of course especially grateful that you were able to complete the work before the Government's changes to the feed-in tariffs came into being.

As our Minister, Rev Mandy Stevens, said in the Church press release "It is really exciting to see the panels installed and Solarsense have been brilliant to work with. We are committed to being an Eco-Congregation and caring for our community and planet and this project contributes to that."

We wish Solarsense continued success in their work in the renewable energy field.

Yours sincerely

A C Emery  
Eco Congregation Coordinator and Chair of the Solar Panel Working Group

### **MISSION STATEMENT**

To be like Jesus  
and link the transforming love of God  
into every aspect of daily life.

We will do this, guided by the Holy Spirit,  
through a life of worship,  
learning and caring, service and evangelism.
